

## ABOUT OUR PARK

Oakvale Wildlife Park is an Australian family owned and operated business, opened in 1979 and grown from our love of animals and desire to share the excitement of getting up close with them.

We encourage our guests to embrace the opportunity to interact with the animals as they roam freely around the park's 25 acres in beautiful Port Stephens.

We are proud to be Ecotourism certified, Zoo and Aquarium Association (ZAA) accredited, and have implemented an environmental management plan as a part of our ongoing commitment to a sustainable future.

## SAVE OUR WILDLIFE

At Oakvale Wildlife Park we're acutely aware that the world's wildlife is under threat. In response to this, we created a conservation initiative called the Save Our Wildlife campaign.

The mission is to 'contribute to the conservation and preservation of the animal species of the world' which will be achieved through education, conservation, breeding programs, research and fundraising initiatives.

Oakvale has already established multiple endangered species breeding programs. We are releasing threatened and endangered species back into the wild for future generations to enjoy.

To donate or find out how you can help Save our Wildlife visit [oakvalewildlife.com.au](http://oakvalewildlife.com.au) or ask us for one of our brochures.

Conservation encounter available, proceeds go to the conservation initiative, **Save Our Wildlife**.
